PRICING PHILOSOPHY

Working Backwards From Value

Work Backwards From Value

The right way to price land is top-down. Start with what a finished luxury lakefront estate would sell for, subtract the cost to build it, and what remains is what the land is worth.

Finished Home Value: \$11M–\$15M+

A custom luxury estate on 2.13 acres with wide open water views would command \$11M–\$15M+ on Lake Norman. A Peninsula property sold at \$11.5M in 2024.

This Will Take a Special Buyer

The right buyer is building a \$7M–\$9M estate — roughly \$3.5M for land, \$4M+ to build. They chose privacy and views over a prestigious zip code. That buyer exists.

Working backwards: \$7M–\$9M finished home value for a highway-frontage waterfront site, minus \$2.5M–\$5M to build, minus \$400K–\$600K in site work, minus adjustments for no pier, no Peninsula neighborhood, and excess acreage — leaves **\$3.05M–\$4.0M** in residual land value. Three pricing options are presented: **\$3,350,000** (move it), **\$3,490,000** (target), **\$3,700,000** (aspirational).

CANOPY MLS & OFF-MARKET

Premium Waterfront Comparables

Properties supporting the upper range of value

CLOSED

Cornelius, NC 28031

0.97 AC4,148 Sq Ft HomePeninsulaHas PierSloped Lot192 DOM

Potential Teardown

\$3,850,000Active · 192 Days

192 days and no contract — the market is telling you it's overpriced even with a 4,148 sq ft home included. Location could justify a teardown scenario, but the ask doesn't pencil either way. Sloped lot adds construction cost. This is a ceiling, not a comp — the subject is raw land priced below a stale improved listing.

PRIVATE SALE

14717 NC Hwy 73
Huntersville, NC 28078

0.94 ACWaterfrontRenovated Residence*Same RoadNo Interior Photos

\$4,490,000Recent High-Priced Sale · Highest NC-73 Waterfront Transaction (Private Sale)

Highest recorded NC-73 waterfront transaction. Private sale — no interior photos available. Listing agent represented the home as renovated. Includes existing residence; less water view than subject. Confirms strong buyer demand on this corridor at the top of the market.

The Peninsula comps trade at **\$3.3M–\$3.85M** for lots under 1.2 acres in private cul-de-sac settings with estate neighbors. The subject's wide open water is a genuine advantage — but highway frontage and the absence of a curated neighborhood are real negatives that Peninsula buyers will not discount. **The subject also carries more acreage (2.13 AC) than any of these comps — but raw land acreage above 1 acre does not command a straight-line premium in this market.** A buyer purchasing luxury lakefront land wants a manageable, intimate estate site — not a field to maintain. The additional acre must be priced with that buyer psychology in mind.

▲ NC-73 Corridor Note: Planned Highway Expansion

NC Highway 73 is slated for expansion in this corridor. For a buyer seeking a private lakefront estate, this warrants disclosure — increased traffic volume and construction activity will be a near-term reality along the subject's road frontage. However, highway expansions also signal long-term corridor growth: improved access, rising land values, and increased development pressure in the area. The subject lot's depth and setback provide meaningful buffer. **A sophisticated buyer should factor in both the near-term construction impact and the long-term appreciation this infrastructure investment typically drives.** The expansion also helps explain why developer interest in this corridor is accelerating — as noted below.

CANOPY MLS · ACTIVE LOT LISTINGS

NC-73 Corridor · Active Lot Listings

Raw land listings — no homes, no improvements. Both active 110+ days.

Limited Water Views

\$1,800,000

Active · 110 DOM

Raw lot listing — no home, no improvements. 110 days on market at \$1.8M with limited water views and less than a third of the subject's acreage. Establishes the active corridor ceiling for smaller lots.

ACTIVE

14709 NC Hwy 73

Huntersville, NC 28078

0.46 AC

Lot Listing

110 DOM

No Meaningful Views

\$1,400,000

Active · 110 DOM

Raw lot listing — no home, no improvements. 110 days on market at \$1.4M with no meaningful water views. Establishes the corridor floor. Subject has nearly 5x the acreage and wide open water.

CONTEXT ONLY · NOT SINGLE-FAMILY COMPS

Developer Assemblage — Same Buyer

14731, 14799, 14899 NC Hwy 73 and 15915, 15925 Beatties Ford Rd are all under contract with the same buyer assembling land for a development project. These are not comparable to a single-family residential land sale and should not be used to establish market value for the subject property.

DEVELOPER ASSEMBLAGE

14731, 14799 & 14899 NC Hwy 73

Huntersville, NC 28078

0.57 AC · 0.57 AC · 1.43 AC

Same Buyer

No Water Views

\$1.15M · \$1.15M · \$1.45M

Three lots being assembled by one buyer for a development play — not a single-family buyer. Prices reflect bulk/development value, not estate land value.

DEVELOPER ASSEMBLAGE

15915 & 15925 Beatties Ford Rd

Huntersville, NC 28078

0.79 AC · Under Contract

Same Buyer

No Water Views

\$1.15M · \$1.15M

Part of the same assemblage. No water views, off-corridor. Included for transparency — not used in subject property valuation.

The only active lot listings in this corridor are 14701 and 14709 NC Hwy 73 — both raw land, no improvements, both sitting at 110 days on market without a contract. They're asking \$1.4M–\$1.8M with limited or no water views and a fraction of the subject's acreage. The developer assemblage activity nearby is a separate story: it confirms sophisticated capital is actively accumulating land ahead of the NC-73 expansion. **For the subject property, that's a tailwind, not a comp.**

MARKET LESSONS · WITHDRAWN LISTINGS

What the Market Rejected — and Why

WITHDRAWN

15919 Sunset Drive

Huntersville, NC 28078

1.73 AC

594 DOM

Lake View · Limited Shoreline

No Pier

Power Lines Through Lot

\$2,300,000

594 days at \$2.3M — never found a buyer. Power lines run through the lot, limiting buildable area. Lake view but not open water, and less shoreline than the subject. The market was clear: encumbrances and limited views at this price point don't close.

ACTIVE (RELISTED)

7423 Norman Island Drive

0.81 AC

273 DOM · Withdrawn

Relisted · 35 DOM

Overpriced

Low Privacy

\$2,200,000

308 Cumulative Days

Withdrawn after 273 days — market rejected it. Relisted at \$2,200,000, now 35 days in. Cumulative exposure: 308 days. The market has seen this one before. A stale relist at the same price is a price problem, not a marketing problem.

These listings tell a clear story. 15919 Sunset Drive sat for **594 days** at \$2.3M — power lines through the lot, lake view (not open water), no pier. Never found a buyer. 7423 Norman Island Drive was withdrawn after 273 days and relisted — now 308 cumulative days on market. The market has spoken on both. The subject has none of these issues: flat, cleared, wide open water, pier-eligible, no encumbrances. **Priced honestly, it should not sit.**

PRICING ANALYSIS

Three Pricing Options

Finished estate value on this site (wide open water, 2.13 AC)	\$7,000,000 — \$9,000,000
Less: Cost to build (luxury custom home)	– \$2,500,000 — \$5,000,000
Less: Pier + site work + landscaping	– \$400,000 — \$600,000
Less: No pier installed (buyer cost)	– \$150,000 — \$200,000
Less: Not Peninsula/The Point — no curated neighborhood, no cul-de-sac privacy	– \$300,000 — \$500,000
Less: Highway frontage — NC-73 road noise and traffic exposure (not a modest factor)	– \$200,000 — \$350,000
Less: Acreage above ~1 acre discounted — luxury buyers don't pay a premium for excess raw land they don't need	– \$100,000 — \$200,000

Residual land value range

\$3,050,000 — \$4,000,000

OPTION	PRICE	STRATEGY
Option A — Move It	\$3,350,000	
Option B — Target	\$3,490,000	Sits at the floor of the residual range; leaves room to negotiate; broad buyer pool without leaving money on the table. Le

Option C — Aspirational

\$3,700,000

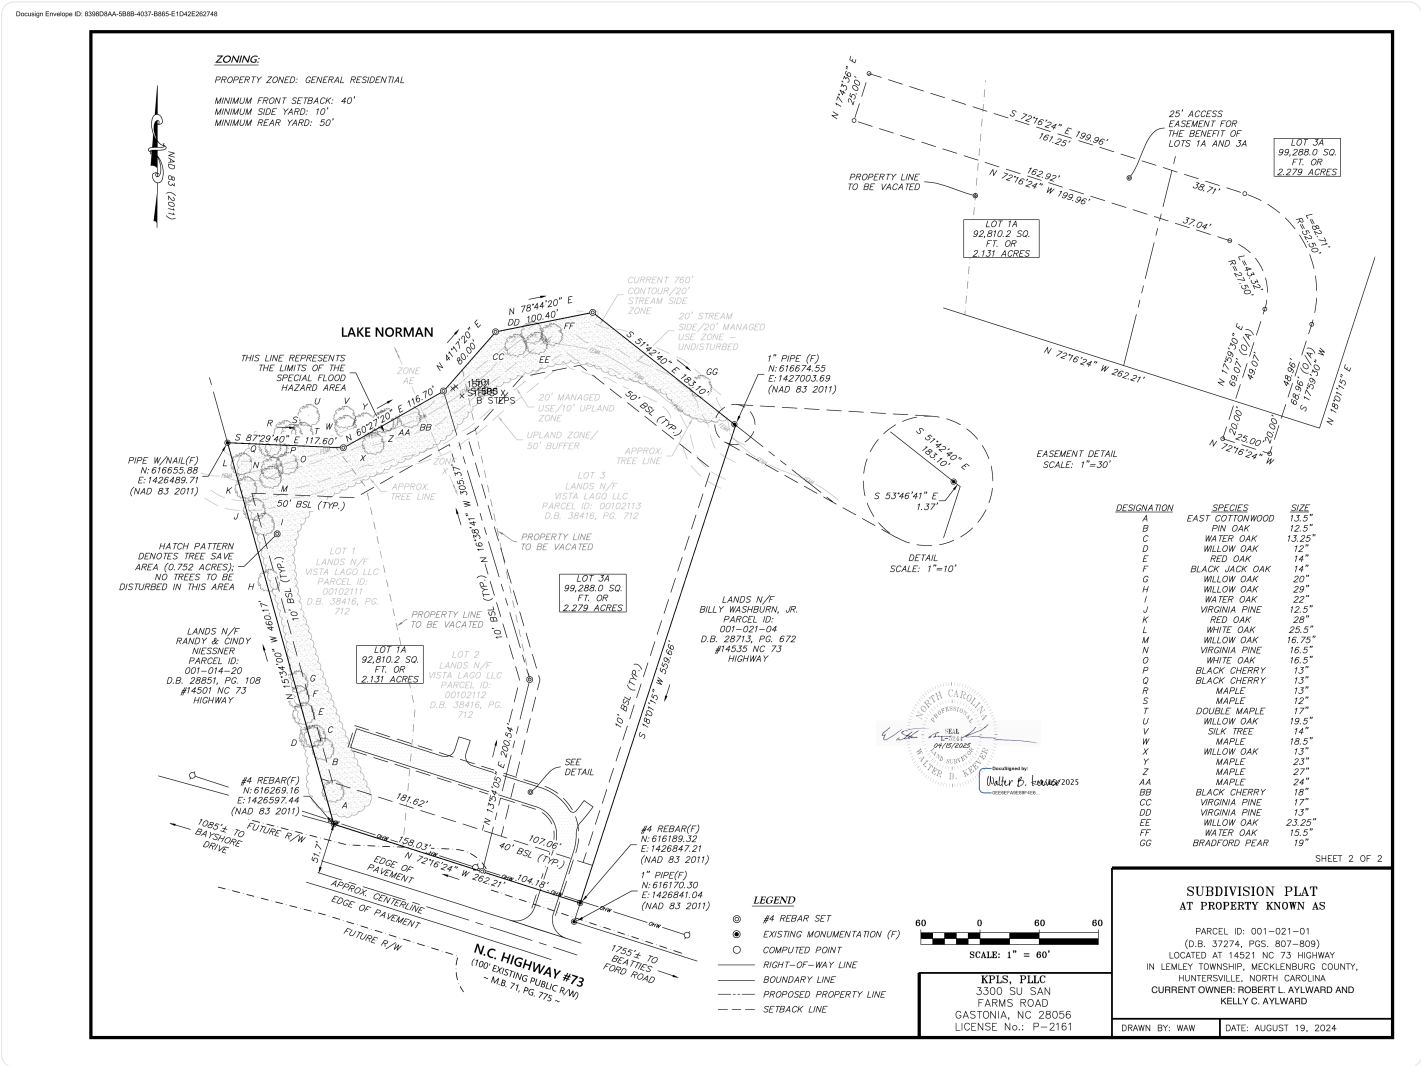

All three options are defensible. **Option B (\$3,490,000)** is the recommendation — and it carries a built-in value story that the others don't. At 2.13 acres, the subject is eligible for lot division into two parcels at approximately \$1.75M each. With active corridor listings at 14701 and 14709 NC Hwy 73 asking \$1.4M–\$1.8M for smaller lots with inferior water views — and sitting at 110+ days with no contract — two lots here priced at \$1.75M each are immediately the best-positioned waterfront land in the corridor.

This creates a dual-market strategy: **market the site to its full potential as a single 2.13-acre estate**, and simultaneously **show buyers the subdivision upside** — a path to \$3.5M from two lots that validates the single-site ask without discounting it. The nearby stale listings don't compete with the subject; they support it. That's a rare marketing advantage and a compelling story for the right buyer.
