PRICING PHILOSOPHY

Working Backwards From Value

Work Backwards From Value

The right way to price land is top-down. Start with what a finished luxury lakefront estate would sell for, subtract the cost to build it, and what remains is what the land is worth.

Finished Home Value: \$11M–\$15M+

A custom luxury estate on 2.13 acres with wide open water views would command \$11M–\$15M+ on Lake Norman. A Peninsula property sold at \$11.5M in 2024.

This Will Take a Special Buyer

The right buyer is building a \$7.5M+ estate — \$3.75M for land, \$3.75M+ to build. They chose privacy and views over a prestigious zip code. That buyer exists.

Working backwards: \$11M–\$12M finished home value, minus \$4M–\$5M to build, minus \$400K–\$600K in site work and pier, minus \$300K–\$500K for location and road — leaves **\$3.5M–\$4.5M** in residual land value.

\$3,750,000 sits squarely in the middle.

Same Road

\$4,490,000

Off-Market Sale

Sets the ceiling · includes existing home · less view than subject

These three transactions confirm Lake Norman waterfront demand well above \$3.5M. The subject has superior water views to the \$4.49M sale and nearly 2× the acreage of the Belle Isle comps. The absence of a pier and the non-Peninsula location are accounted for in the recommendation.

No water views · off-corridor location

UNDER CONTRACT

15925 Beatties Ford Rd

Huntersville, NC 28078

No Water Views

Under Contract

\$1,150,000

No water views — confirms view premium is everything

Every lot in this corridor without meaningful water views trades between **\$1.1M–\$1.8M** regardless of acreage. Water views — specifically wide open water — add **\$2M+** in value. This is the most important data point in this analysis.

Overpriced

Low Privacy

Withdrawn

273 days then withdrawn — market sent a clear message

Both withdrawn listings had fundamental constraints the market wouldn't absorb. The subject has none of these issues — flat, clear, no encumbrances, pier-eligible. **Pricing discipline and honest positioning will attract the right buyer.**

PRICING ANALYSIS

How We Arrive at \$3,750,000

Finished estate value on this site	\$11,000,000 – \$15,000,000+
Less: Cost to build (luxury custom, 2.13 acres)	– \$4,000,000 – \$5,000,000
Less: Pier + site work + landscaping	– \$400,000 – \$600,000
Less: Location adjustment (not Peninsula/The Point)	– \$300,000 – \$400,000
Less: Road noise (NC-73 frontage)	– \$100,000 – \$150,000
Less: No pier installed	– \$150,000 – \$200,000
Residual land value range	\$3,500,000 – \$4,500,000

Recommended list price

\$3,750,000

*This will take a **special buyer** — someone building a \$7.5M+ estate who chose privacy, land, and wide open water over a Peninsula zip code. That buyer is real. At **\$3,750,000**, this lot is positioned to find them.*
